

Sample Project Report

1. Introduction

This is a sample project report created for testing the PDF Chat Assistant application. The purpose of this document is to provide test data that can be used to evaluate the system's ability to retrieve information and answer questions accurately.

2. Project Overview

Project Title: AI-Powered Document Analysis System

Author: John Doe

Date: July 1, 2026

Version: 1.0

3. Key Features

- PDF text extraction and processing
- Text chunking and embedding
- Vector similarity search using FAISS
- Local AI model integration via Ollama
- SQLite for data persistence
- Desktop UI with tkinter

4. Technical Details

The system uses the following components:

- Embedding model: all-minilm:l6-v2
- Chat model: qwen2.5:3b
- Vector store: FAISS
- Database: SQLite
- GUI framework: tkinter

5. Performance Metrics

Average response time: 2-3 seconds

Accuracy on factual questions: 85%
